

EDUPOINT™ HET

Results and Certificates

EduPoint's integrated Results module is flexible, efficient and easy to use

A single point of truth

With EduPoint student results are entered once, ensuring up-to-date information for assessments, regulatory or compliance reporting. The results module is flexible enough to support all types of education and training from degree level to short courses and work place training. EduPoint lets you efficiently record and track student and group results for training packages and courses. EduPoint's unique 'qualification' automatically triggers a certificate and Statement of Attainment upon their completion of a qualification- saving you valuable time and resources.

Have it your way!

EduPoint is flexible; to fit the way you work - putting you in control of the way results are recorded. Results can be recorded at the level of the unit or individual assessment items. A range of assessment methods are also supported.

Web-based

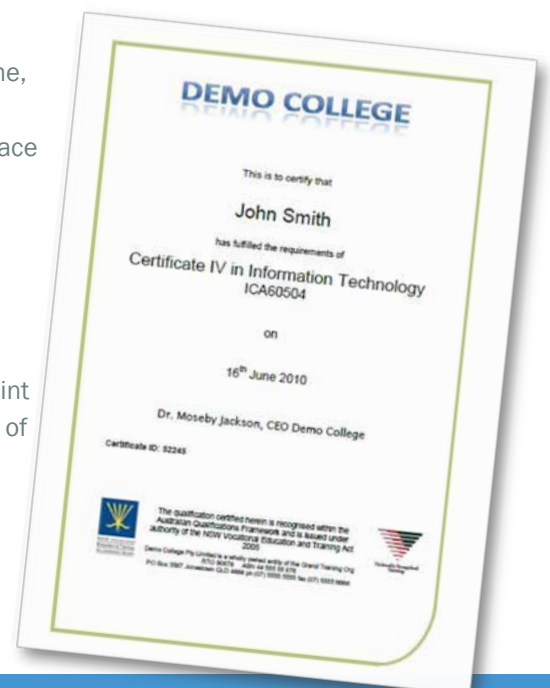

Access to EduPoint is available for your entire team via the web anytime, anywhere so assessments can be recorded at your facility, the workplace or from home..

Track performance

Whether you are an educator or a manager with over a hundred configurable built in reports, EduPoint makes it easy to track the progress of Groups or individuals.

Certification

Integration with MS Word gives you complete control over the design and printing of Certificates, Transcripts and Statements of Attainment.

Feature

Benefits

Flexible Academic Structure	<ul style="list-style-type: none"> Allows academics to structure assessment items within the individual units of study and competencies. Recording assessment items allows you to easily calculate results for units of competencies Results can be recorded at any level of the academic structure that you set up in EduPoint
AQFT Completions Reporting	<ul style="list-style-type: none"> Gives organisation the ability to easily set-up and report on units of completion for AQFT reporting Maintains an organisation's AQFT compliance
Qualification Certificates	<ul style="list-style-type: none"> Set and manage your scope of registration within EduPoint Set benchmarks for student's achievement of qualifications Automatically triggers a certificate and Statement of Attainment for successfully completed students. No more working out who has completed and who has yet to complete. Easily upload and manage your certificate and Statement of Attainment templates
Web-based	<ul style="list-style-type: none"> Whether you are in the classroom, staffroom, office or at home, EduPoint is always available via an internet connection. Gives your educators the flexibility to manage their time more effectively by allowing them to enter results whenever they need to.
Smart data entry screens	<ul style="list-style-type: none"> EduPoint allows users to record results via the individual student or via a class group. Results for each student/group are entered all on one page, saving you having to spend time flicking through pages for data entry.
Student Portal	<ul style="list-style-type: none"> EduPoint's Student Portal allows students to log in and view their results once they have been released by the organisation.
